

HIGH-SPEED NETWORKING TECHNOLOGY PARTNER

COMBO

- ▶ Comprehensive framework for hardware acceleration
- ▶ Accelerated network solutions & custom FPGA applications

NetCOPE

- ▶ Significantly reduces time-to-market and development costs
- ▶ Wirespeed packet processing and packet capture feature
- ▶ High performance PCI Express COMBO FPGA boards
- ▶ 4x 1GbE, 2x 10GbE, 4x 10GbE models available
- ▶ On-chip bus architecture with high-speed DMA engines
- ▶ Open standards based software support
- ▶ Hardware and software abstraction layer
- ▶ 100 GbE model in development

COMBO FPGA BOARDS & NETCOPE PLATFORM
